This section is *optional* and can be used to provide a summary of recommendations to the IT manager regarding which controls and/or compliance best practices Botium Toys needs to implement, based on the risk posed if not implemented in a timely manner.

Recommendations (optional): In this section, provide recommendations, related to controls and/or compliance needs, that your IT manager could communicate to stakeholders to reduce risks to assets and improve Botium Toys' security posture.

Com base na auditoria realizada na postura de segurança atual da Botium Toys, recomendo a implementação imediata dos seguintes controles para mitigar riscos e garantir a conformidade com os padrões PCI DSS e GDPR:

1. Implementação de Criptografia: É obrigatório adotar criptografia para proteger dados confidenciais. A falta deste controle é uma violação direta do PCI DSS.

2. Sistema de Detecção de Intrusão (IDS): Embora a empresa possua Firewall, é necessário implementar um IDS para monitorar o tráfego de rede em busca de atividades maliciosas e potenciais violações que ultrapassem o perímetro.
3. Plano de Recuperação de Desastres: Deve-se criar e testar um plano formal de recuperação para garantir a continuidade dos negócios e a integridade dos dados em caso de ataques cibernéticos ou falhas sistêmicas.
4. Fortalecimento do Controle de Acesso: Implementar um Sistema de Gerenciamento de Senhas centralizado e aplicar rigorosamente os princípios do Menor Privilégio e da Segregação de Funções para limitar o acesso a dados sensíveis.
